

Sail Numbers

All sailors must display their correct sail number as issued to them by the UKWA or RYA at all times.

You may only race on an alternative number in extenuating circumstance with the express permission of the race committee.

Failure to comply with this will result in sailors using unrecognised sail numbers not been given a result.

The sailor may then fill in a results query form and expect a 20% place penalty.

Illegible Sail Numbers

Sail numbers must be complete and legible at all times.

If they are not the race committee will warn the sailor and allow reasonable time to correct the matter (normally the next break ashore).

If that opportunity is not taken you may be awarded a penalty of 10% in the next race.

Each time you miss an opportunity the 10% penalty will apply to those races.
